

September 29, 2021

To the President and Members  
of the Board of Education of the  
Schodack Central School District

Dear President and Members of the Board of Education:

We have audited the financial statements of the governmental activities and each major fund of the Schodack Central School District (the District) as of and for the year ended June 30, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated June 22, 2021. Professional standards also require that we communicate the following information related to our audit.

#### Significant Audit Findings

##### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements. As described in Note 9 to the financial statements, the District changed accounting policies related to accounting and reporting of fiduciary funds by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 84, *Fiduciary Activities*, in 2020-2021. Accordingly, the cumulative change in accounting changes as of the beginning of the year is reported in the statement of activities, statement of revenues, expenditures and changes in fund equity governmental funds and statement of changes in net position – fiduciary funds. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the District's financial statements were:

1. Management's estimate of the depreciable lives of property and equipment are based on judgments regarding the length of time an asset will provide value to the District.
2. Management's estimate of the compensated absences are based upon accumulated sick days, rates of pay and the probability of retirement.
3. Management's estimate of the other post-employment benefits and related deferred outflows/inflows is based on an actuarial calculation provided by a third party.
4. Management's estimate of the net pension asset/liability and deferred outflows/inflows is based on actuarial assumptions provided by the individual state plans.

We evaluated the key factors and assumptions used to develop each of the above estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements are those related to the other postemployment benefits and pension plans.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of our audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion audit's financial statement taken as a whole.

#### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### *Management Representations*

We have requested and received certain representations from management that are included in the management representation letter dated September 29, 2021.

#### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and we believe our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management's discussion and analysis, schedule of revenues, expenditures and changes in fund equity - budget and actual - general fund, schedule of changes in total OPEB liability, schedules of proportionate share of net pension liability (asset) and schedules of district contributions, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods or preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the schedule of changes from adopted budget to final budget, schedule of the real property tax limit, schedule of project expenditures - capital projects fund and schedule of net investment in capital assets, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled this supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Board of Education, the Audit Committee and management of the Schodack Central School District and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*Marvin and Company, P.C.*
