AHERA NOTIFICATION
(Asbestos Hazard Emergency Response Act Notification)
For Schodack Central School District

The school district is required, under rules and regulations of the federal Environmental Protection Agency (EPA) in response to the Asbestos Hazard Emergency Response Act of 1986 (AHERA), to notify students, parents and employees of the presence of asbestos containing materials (ACM) in its buildings. Notice is hereby given that pursuant to AHERA 40 CFR Part 763 section 763.93, the District will conduct inspections, re-inspections and operations and maintenance activities designed to identify and abate ACM known to exist in its school buildings. Notice is also given that a copy of the district's Management Plan for Asbestos Abatement, together with supporting documentation, is available for inspection in the District facilities office.

Questions concerning the District's response to AHERA regulations should be directed to the Director of Facilities, the District's LEA Asbestos Designee, at 518-732-4982.
